March 2025

Dear Patrons and Members of the Community;

As we began a blustery and snowy 2025, we look back at many positive moments in 2024. The library saw an increase in visitors, circulation and attendance at our programs and events. During the summer, we provided service for up to 75 people a day! We now offer faster internet within the library and many online services under our 24/7 section on the website. Our new Programming Librarian will be creating even more programs and events based on the community's needs and interests, making an already full schedule even more robust. Your yearly contribution helps ensure our continued success.
